## Results Survey for Teachers from Ida-Virumaa Training Vocation Center, Estonia

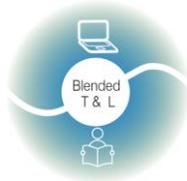

The survey for teachers has been filled out by 24 teachers from Ida-Virumaa Training Vocation Center, Estonia. The survey aims to assess the teaching quality of education and applied educational tools, techniques, methods in the classes. The information collected was used for a gathering of general data and was anonymous.

How often do you use interactive tools (images, videos, quizzes, graphics etc.), when you teach?

Sometimes	8
Often	5
Always	11

In your experience, to what extent the use of interactive tools increases the interest of the students for the lesson.

40% in person - 60% online	1
20% in person - 80% online	2

### Conclusion:

1) According to the data we received:

**Working in pairs/groups** is effective with **Face to face** method

**Case study** is effective with **Face to face** method

**Role play** is effective with **Face to face** method

**Questions/ answers** is equally effective with both **Face to face** method and **Distance learning** method

**Discussion** is effective with **Face to face** method

**Presentation** is nearly equally effective with **Face to face** method and **Distance learning** method

**Research** is equally effective with both **Distance learning** method and **Blended teaching** method

2) 100% of the teachers use practical examples in their lessons, and 83% think that they actually help students understand better a subject

3) Teaching method that encourages the most students to participate more actively is **Teaching in-person**

4) Only 38% of the teachers believe that merging together the individual ingredients of blended teaching (face to face teaching, online teaching, the use of various interactive tools in the class, independent study, simulations, assessment and feedback, one on one coaching) will make blended lesson more efficient.

5) 38% of the teachers believe that organizing lessons, they need to do the maximum number of contact lessons and the minimum online (80/20%), 29% of the teachers chose 60/40%.
