

Google Classroom

An Introduction

An open book is shown at the bottom left, with a glowing, ethereal light trail rising from it. The light trail consists of many thin, white lines that curve and swirl upwards and to the right, creating a sense of movement and magic. The background is dark, with several bright, multi-pointed stars scattered throughout. The overall atmosphere is one of wonder and discovery.

The purpose of Google Classroom

Classroom is a free service for schools, non-profits, and anyone with a personal Google account. Classroom makes it easy to create classes, distribute assignments, communicate, and stay organized.

Google Classroom Compatibility

Google Classroom is available on Desktop and Mobile devices. On desktop, it supports operating systems such Windows, macOS and Linux. On mobile devices, Android and iOS.

10 Reasons to use Classroom

1. Easy to learn- very little training required

2. Intuitive, clean design

3. Keeps work organized for students

4. Full integration with Google Drive

5. Simple way to get started with creating a paperless classroom

6. Enhances communication with students

7. Files are automatically duplicated for each student

8. Easy integration with most devices

10. Allows you to focus on teaching & learning, not technology

9. It's a Google product- expect continued support and implementation of new features

Exploring Classroom:

Teacher Perspective

- **Creating and customizing a new class**
- **Adding students**
- **Digital workflow - assignments**
- **Digital communication - announcements & email**
- **Integration with Google Drive**
