

Presentation by: Paschalis Apostolidis

Kahoot!

- Kahoot! is a game-based learning platform used by millions of people around the world
- Discover, create, share and play learning games
- At school, teachers can use Kahoot! to:
 - Break the ice and reward the class
 - Introduce new topics
 - Collect student opinions
 - Engage students via distance learning
 - Teach interactive lessons
 - Review content at class and home

Free account

- Create kahoots with quiz and “*true or false*” questions
- Host a live kahoot in a class or via video conferencing
- Assign student-paced kahoots that learners play on their personal devices at class or at home
- Up to 50 players per game can play a live or assigned kahoot
- Team mode – Lets players join teams from personal or shared devices and compete against other teams
- View analytics in advanced reports
- Create a group with up to 8 educators ,to share kahoots for specific subjects, grades etc.

Two ways with which students can play a kahoot

1. Teach

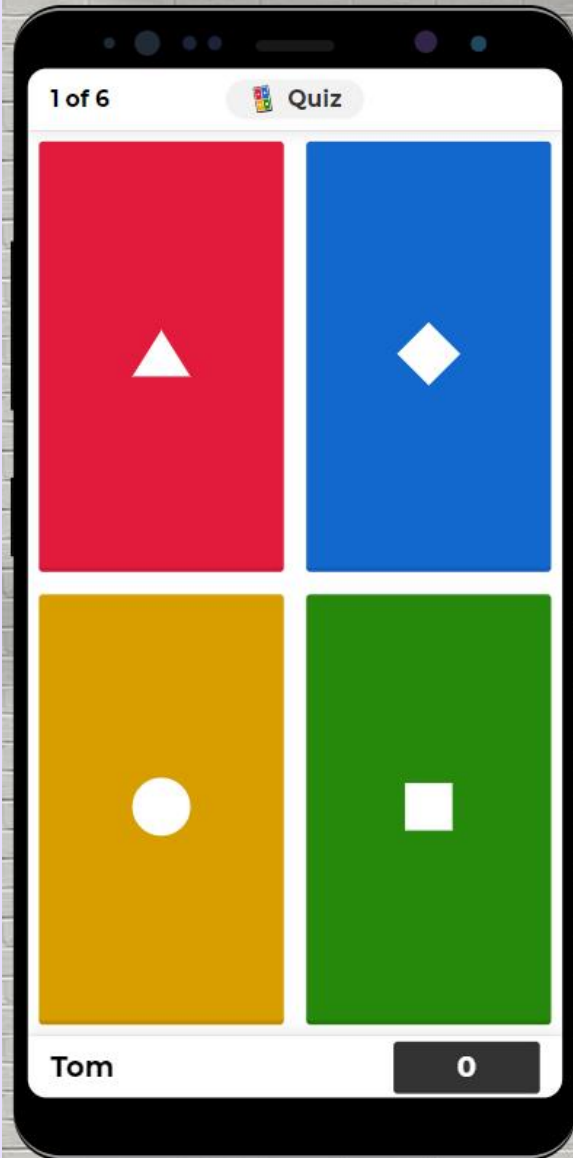

- Host a kahoot live in a class
- Host a kahoot via video for distance learning

2. Assign

- Assign a student paced challenge where students will play asynchronously at their own pace

Share a kahoot

- Teachers can share their created kahoots via e-mail, Facebook, Twitter, Pinterest, Microsoft teams, Google Classroom and Remind

Reports

- Reports allow teachers to reinforce important knowledge, fine-tune content and instruction based on questions a group found difficult and identify learners who need help.
- Kahoot! reports can be exported to MS Excel spreadsheets
